

## Tech Sheet: Lear Models 70 & 75

(lear-L70.pdf)

Lear 70 Cockpit Cover

### Section 1: Canopy/Cockpit/Fuselage Covers

The **Lear Models 70 & 75 Cabin Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

The Lear Models 70 & 75 Cabin Cover is designed to cover all of the windows of the airplane, plus extend forward to cover the nose. It attaches with belly straps, and the attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. The windshield cover comes with a duffle bag. The N-number can be imprinted onto the cover for an extra charge. The windshield cover and the duffle bag are trimmed in the colors of the aircraft.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

Lear 31A Cockpit Cover

Learjet 45 Cockpit Cover

Description	Part Number	Price
COCKPIT COVER	L70-000	\$730.00
COCKPIT/NOSE COVER	L70-020	\$1240.00
CABIN/NOSE COVER	L70-030	\$4045.00

## Section 2: Engine Covers

**Tri-Fold Ring Engine Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and

folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

**ALL-YEAR USE MATERIAL** - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

The **Lear Models 70 & 75 Bikini Style Engine Covers** are a single-piece design using a soft and smooth stretchy and fabric. The cover stretches tightly over both the intake and exhaust, installing quickly and easily. These covers are designed to be used as hangar dust covers and have a useful life of approximately one year.

Lear 60 Engine Cover set

Lear 60 "Bikini Style" Engine Covers

Description	Part Number	Price
ENGINE COVERS (WITH TR'S), includes small plugs (set of 7)	<b>L70-100</b>	<b>\$1100.00</b>
ENGINE COVERS, Hangar Use, Bikini type (set of 2)	<b>L70-105</b>	<b>\$880.00</b>

### Section 3: Plugs & Protection

**Lear Models 70 & 75 Heat Resistant Pitot Tube Covers**, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Inlet Plugs** are custom fit for your Lear Models 70 & 75 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

Learjet Heat Resistant Pitot Cover and AOA Strap

Learjet Heat Resistant Pitot Cover with AOA strap

Description	Part Number	Price
PITOT COVERS w/AOA STRAP, TAT PROBE, heat resistant type (set of 4)	<b>L70-058</b>	<b>\$385.00</b>
PITOT COVERS, heat resistant type (set of 3)	<b>L70-059</b>	<b>\$345.00</b>
PITOT COVERS w/AOA STRAP, heat resistant type (set of 3)	<b>L70-060</b>	<b>\$350.00</b>
ENGINE INTAKE/EXHAUST PLUG SET (set of 4)	<b>L70-110</b>	<b>\$1230.00</b>

### Section 5: HeatShields & Sun Reflectors

**Cockpit Heatshields** are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. Our Heatshields for jets are offered white side out because some aircraft manufacturers have issued advisories against reflective window inserts due to potential heat damage. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Lear Models 40 & 45 Cockpit Heatshields, Covers All Cockpit Windows

Description	Part Number	Price
COCKPIT HEATSHIELDS (set of 2)	<b>L70-900</b>	<b>\$360.00</b>
